SSB Interview Procedure

SSB is a Personality based selection

Personality Assessment = Study of the mask

Personality Assessment implies study of the mask i.e. penetrating through the outer mask and to see who are you from inside - ie. your value system, belief system, attitude, needs, motives

SSB Interview de-Coded

you ?

What is this **IT** that SSB is looking for in each candidate?

Officer Like Qualities

Factor-I:

Factor Planning & Organising

1. Effective Intelligence
2. Reasoning Ability
3. Organising Ability
4. Power of Expression

Factor-II:

Factor Social Adjustment

5. Social Adaptability
6. Cooperation
7. Sense of Responsibility

Factor-III:

Factor Social Effectiveness

8. Initiative
9. Self Confidence
10. Speed of Decision
11. Ability to Influence the Group
12. Liveliness

Factor-IV:

Factor Dynamic

13. Determination
14. Courage
15. Stamina

At the SSB, the Psychologist, the GTO and the IO evaluates each candidates in four Dimensions of his/her Personality as follows:

Factor-I: Qualities of Head (IQ)

Factor-II: Qualities of Heart (EQ)

Factor-III: Social Effectiveness

Factor IV: Dynamic Qualities

Within the Factor-I OLQs, **REASONING ABILITY** is called as the **Mother of all OLQs**.

Quotient (SQ)

Emotional
Quotient (EQ)

Intellectual
Quotient (IQ)

Physical
Quotient (PQ)

Service Selection Board

Physical
Quotient (PQ)

Physical Fitness is a necessary condition but not sufficient condition.

When you join the Indian Armed Forces in the Soldier Cadre, Physical Fitness is the dominant requirement; where as in case of SSB Interview, Physical Fitness is one of the many requirements.

So a SSB Coaching which only works on your Physical Dimension and ignores the development of your IQ, EQ & SQ is completely meaningless and must be avoided

Service Selection Board

40 cadets drop out of NDA, unable to cope with rigour

Pune Mirror | Feb 10, 2015, 02.30 AM IST

A file photo of cadets celebrating after an NDA passing out parade

By: Sandip Dighe

Given the exodus in the batch that graduated last November, academy is now forming initiatives to make the atmosphere conducive to retain cadets

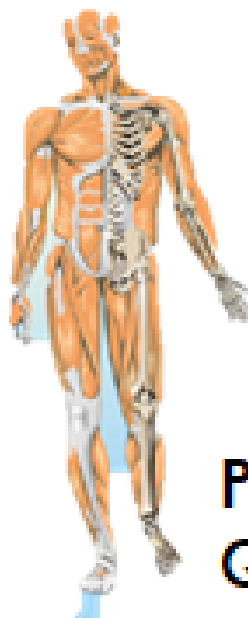

The severity of military training is known to break the best of men — memorably portrayed in the '80s film, *An Officer and a Gentleman*. Closer home, perhaps for the first time in the history of National Defence Academy (NDA), a premier joint training institution of the Indian armed forces and armed forces of friendly foreign countries, as many as 40 cadets have dropped out of the 127th course (spanning the three-year period of 2011- 14), unable to bear the hardship of physical training. Up until now, the average dropout rate has veered between 10 and 15 from each batch.

Consequences of low determination – where is the strength of will in the Physical domain?

At the academy, a cadet is allotted to one of the 18 squadrons, which then becomes his home for the next three years. The syllabi encompass science, technology, arts and military subjects. But, the regimen of physical conditioning includes drills, swimming, horse riding, a gamut of games and adventure activities — the hardships defined by the pitch of the training.

Training is going to be very tough;
Keep your self mentally and
physically fit & tough

**Do
you
have
it in
you ?**

**Physical
Quotient (PQ)**

DAILY PHYSICAL ACTIVITY TO BE UNDERTAKEN

- ✓ **Daily 5 Kms Jogging/ Speed Walk**
- ✓ **400 Mts sprint (Stamina)**
- ✓ **30 Push Ups**
- ✓ **30 Bend Stretch**
- ✓ **20 Pull-Ups**
- ✓ **Basket Ball/ Football/ Volley Ball/Tennis**
- ✓ **Badminton/ Tennis/ Squash**
- ✓ **Weight Management**

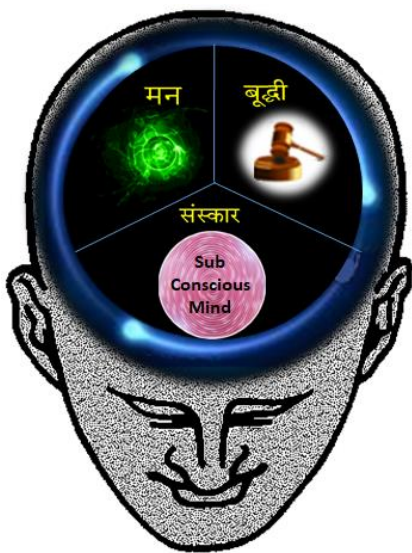

Service Selection Board

**Intellectual
Quotient (IQ)**

Develop these Intellectual Skills

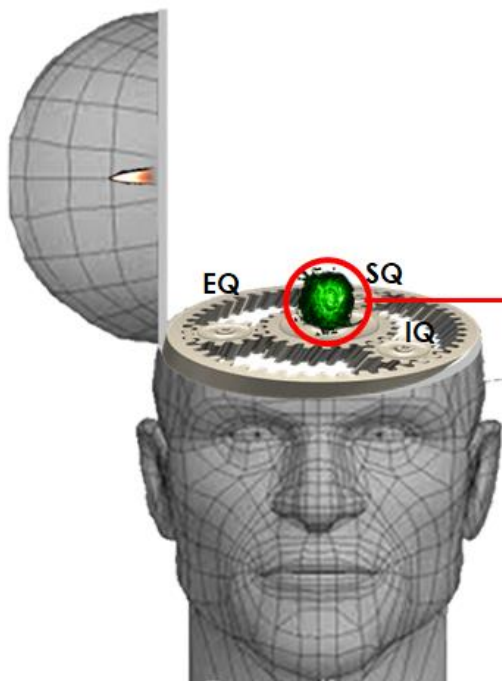

- Problem Solving Skills
- Observational Skills
- Analytical Skills
- Reasoning Skills
- Logical Thinking
- Creative Thinking
- Evaluation Skills
- Conflict Resolution Skills
- Discriminatory Skills
- Accuracy in Judgement
- Decision Making Skills
- Organizing Skills
- Clarity in Thinking

Service Selection Board

SSB is looking for your
Problem Solving Skills ...

So, develop your Intelligence;
don't memorize for SSB

Problem Identification

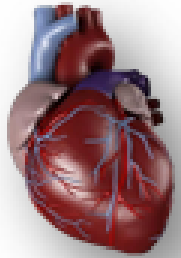

- Grasp the essential well
- Arrive at conclusions by rational thinking
- Receptivity
- Inquiring attitude
- Logical reasoning
- Seeing essentials of a problem.

Problem Solving

- Coping with practical situations
- Situations of varying complexity
- Practical Intelligence
- Resourcefulness

Reasoning Ability (RA) is the **Mother of all OLQs**. Rote Memory kills your RA. Beware of wrong coaching based on ROTE Memory.

Service Selection Board

**Emotional
Quotient (EQ)**

Five areas of Emotional Quotient

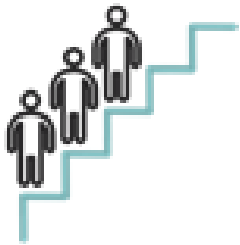

Self-Awareness

The ability to recognize and understand your moods, emotions and drives, as well as their effect on others.

Self-Regulation

The ability to control or redirect disruptive impulses and moods and the propensity to suspend judgment and think before acting.

Motivation

A passion to work for reasons that go beyond the external drive for knowledge, utility, surroundings, others, power or methodology and are based on an internal drive or propensity to pursue goals with energy and persistence.

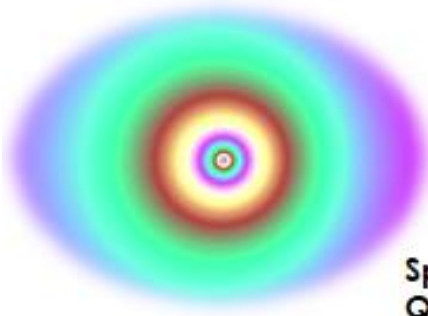

Social Awareness The ability to understand the emotional makeup of other people and how your words and actions affect others.

Social Regulation

The ability to influence the emotional clarity of others through a proficiency in managing relationships and building networks.

Service Selection Board

Spiritual/ Value
Quotient (SQ)

**Basic Human
Values**

Values for Leadership Excellence

Ethical Values

- Purity
- Honesty
- Integrity
- Fairness
- Compassion
- Trust

Family Values

- Love
- Caring
- Patience
- Forgiveness
- Faith
- Empathy
- Harmony

Professional Values

- Competence
- Discipline
- Determination
- Perseverance
- Respect
- Co-operation
- Responsibility

Social Values

- Simplicity
- Flexibility
- Humility
- Reliability
- Equanimity
- Freedom
- Unity

Cultural Values

- Acceptance
- Protection
- Tolerance
- Non-Violence
- Generosity
- Sincerity
- Obedience

Spiritual Values

- Introspection
- Peace
- Courage
- Self-Authority
- Self-Sovereignty
- Dedication
- Self-Actualization

Do you operate your Life out
of Values or Anti-Values?

SSB INTERVIEW: FLOW CHART

SSB is a Personality based selection

SSB is a sub-set of Life...

Do
you
have
it in
you ?

Officer Like Qualities

Take a print out of the OLQs and go through all the OLQs de-Coded Video Series in the AFOSOP YouTube Channel. Reasoning Ability (RA) is called the Mother of all OLQs. Without the development of RA, there is NO chance to clear SSB Interview. Bring a copy of the OLQ definition while coming for the AFOSOP Training.

OLQ de-Coded

Officer Like Qualities (OLQ's)

Factor I-Planning & Organizing

1. Effective Intelligence: It is the intelligence utilized in coping with practical situations of varying complexity. It is different from basic intelligence which is the capacity to perceive relations or to do abstract thinking. Basic intelligence is assessed by the use of intelligence tests. Effective intelligence includes practical intelligence and resourcefulness.

Practical Intelligence: The capacity to evolve independent solutions of practical problems and situations.

Resourcefulness: The capacity to put to use the available means for the desired end. It may be said to contain two factors:

- (a) Improvisation of a solution.
- (b) Finding a solution when in a tight corner.

2. Reasoning Ability: The ability to grasp the essentials well and to arrive at conclusions by rational thinking. Reasoning ability includes receptivity, inquiring attitude, logical reasoning and seeing essentials of a problem.

Receptivity: The ability to understand and absorb new impressions. It involves interest, attention & grasping power.

Inquiring attitude: Healthy curiosity, resulting in an urge to increase one's general knowledge and experience in life

Logical reasoning: The ability to arrive at conclusion or judgement based strictly on a process of rational thinking and excluding emotional factors.

Seeing essentials of a problem: The ability by which the individual is not only clear in his knowledge of the situation at hand, but also is able to analyse various factors, sift them in order of importance and make best use of them towards achieving a solution.

3. Organising Ability: The ability to arrange the resources in a systematic way so as to produce effective results. It can also be defined as the ability to put to the best use the available means for the attainment of a desired objective

4. Power of Expression: It is the ability to put across one's ideas adequately with ease and clarity.

Factor II-Social Adjustment

5. Social Adaptability: The ability of an individual to adapt himself to the social environment and adjust well with persons and social groups, with special reference to superiors, equals and subordinates. Social adaptability includes social intelligence, attitude towards others, tact, and adaptability.

Social Intelligence: The ability to deal with individuals singly or in a group and to be able to get along with superiors, equals and subordinates.

Attitude towards others: The ability to put oneself into the other man's position so as to appreciate justifiable difficulties, to enable rendering of help in a proper way.

Tact: Skillful management of the feelings of the persons dealt with.

Adaptability: The ability to adjust to the environment with special reference to the social situations in that environment. When considering service aspect it involves not only a resilient nature shown by an accommodative tendency but also keenness and interest in service life

6. Cooperation: The attitude of an individual to participate willingly in harmony with others in a group, in achieving the group goal. This implies a belief in the collective effort being more productive than the individual effort. Cooperation includes the element of joint effort and team spirit. Team spirit indicates loyalty to the aims and objects of the group to the extent of subordinating individual aim to the group aim.

7. Sense of Responsibility: It enables a person to be dependable and to willingly discharge his obligation. It includes sense of duty but is much more comprehensive in meaning and scope. Sense of Responsibility implies:

Sense of duty: Faithfully and firmly doing what one is ordered to do.

Discipline: A trained sense of acting strictly in accordance with rules, regulations and conventions. This factor promotes development of self-control and keeps one within bounds of social and normal standards

Factor III-Social Effectiveness

8. **Initiative:** The ability to originate an action and sustain it. It has four aspects ability to take the first step; and to act first usually in a new or subsequently emerging situation in the right direction and maintain it
9. **Self-confidence:** It is the faith in one's ability to meet stressful situations particularly those that are unfamiliar.
10. **Speed of decision:** The ability to arrive at workable decisions expeditiously. It comprises:
The appropriateness of the decision arrived at, and
The quickness in arriving at the decision.
11. **Ability to influence the group:** The ability which enables an individual to bring about willing effort from the group for achieving the objective desired by him. This influence is the prime cause of cooperative and willing effort of a group towards the achievement of a set objective.
12. **Liveliness:** The capacity of an individual to keep himself buoyant when meeting problems and bring about a cheerful atmosphere.

Factor IV-Dynamic

13. **Determination:** A sustained effort to achieve objective inspite of obstacles and setbacks. It implies fixedness of purpose; mental concentration and strength of will. It includes
Application to work: The capacity of physical and mental application to work.
Drive: The inner motive power at the disposal of an individual. It is the capacity to force oneself along when under pressure and urgency, towards the achievement of the objective. It may inspire energetic action in others towards the achievement of a common goal.
14. **Courage:** The ability to appreciate and take purposive risks willingly. It includes:
Ability to meet appreciated danger, spirit of adventure, an enterprising spirit and a willingness or desire to dare or risk a hazard.
Capacity to keep oneself composed in adverse situations enabling one to be steady in facing and handling such situations.
15. **Stamina:** The capacity to withstand protracted physical and mental strain. It emphasises endurance.

PP&DT

(Picture Perception & Discussion Test)

- 1 Picture will be shown
- 30 secs to observe
- 1 min to write the details
- 4 mins to respond
- Response to be given in 3 parts:
 - ✓ What led to the situation? - 2 lines
 - ✓ What is currently going on? - 7-8 lines
 - ✓ What is the final outcome? - 1-2 lines

The sheet you get for the PP&DT is given in the next page

Psychological Test

Projective Technique

The Psychological Tests in the SSB are based on the concept of Projective Technique. The definition of Projective Technique is as under:

PROJECTIVE TECHNIQUE IS AN INSTRUMENT THAT IS CONSIDERED SPECIALLY SENSITIVE TO COVER OR UNCONSCIOUS ASPECTS OF BEHAVIOUR. IT PERMITS AND ENCOURAGES A WIDE VARIETY OF RESPONSES. IT IS HIGHLY MULTIDIMENSIONAL AND IT ENVOKES USUALLY RICH RESPONSE DATA WITHIN A MINIMUM OF SUBJECT AWARENESS, CONCERNING THE PURPOSE OF TESTS.

- LINDEY

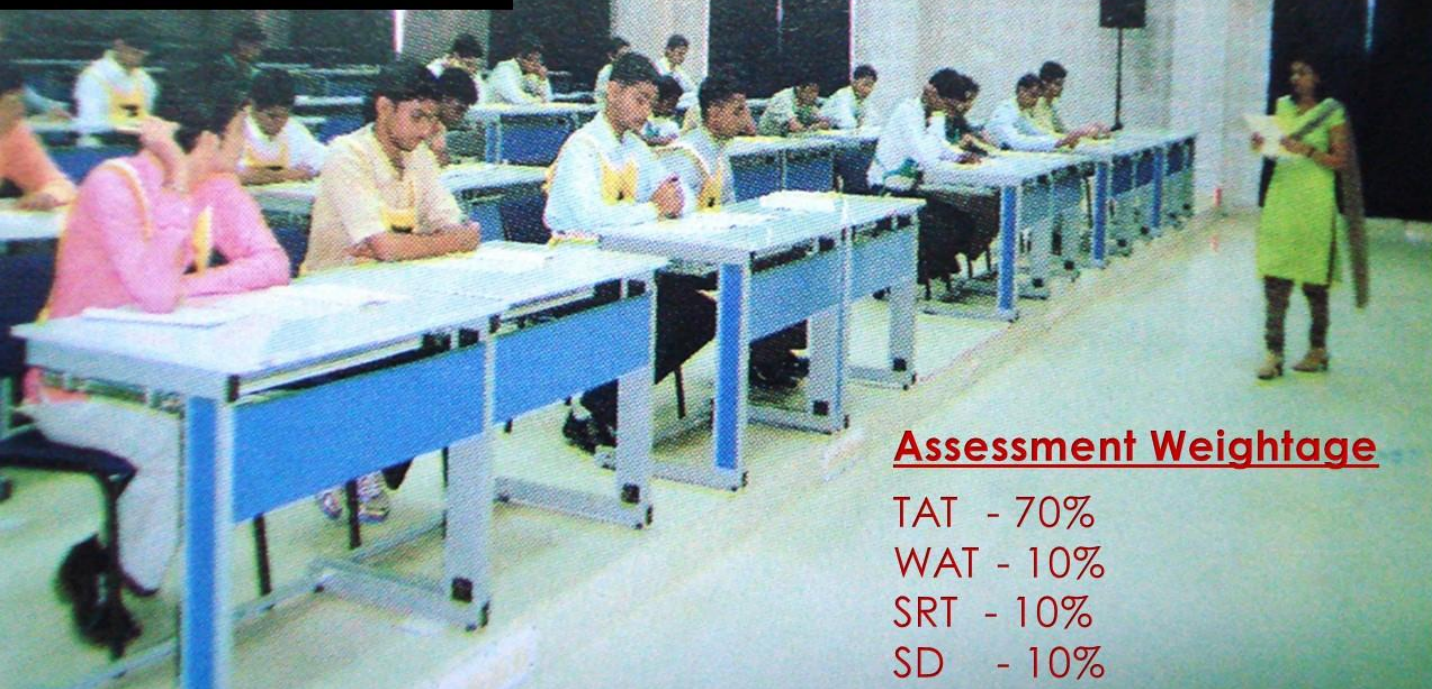

ADVANTAGES OF PROJECTIVE TECHNIQUE

- (a) Individual cannot falsify his responses.
- (b) Reveals unconscious material.
- (c) Reveals emotions, conflict, motives.
- (d) Gives global view.
- (e) Less effected by situational factor.

DISADVANTAGES OF PROJECTIVE TECHNIQUE

- (a) Interpretation is Subjective.
- (b) Needs Skills & Training.
- (c) Time consuming.

Non-Interactive & Non-Intervention Test

Intra-Technique Congruence

SITUATION REACTION TEST

In SRT the "What lead to the situation" is clearly defined in the form of a statement. You have to understand the situation & give your response to that situation ...

Congruence in Performance

The thoughts expressed in the WAT & the decisions that you convey through your SRT responses must be seen in action in TAT. Only then CONGRUENCE in performance will be seen. A disconnected response pattern reflects disintegrati in your personality.

Thematic Apperception Test (TAT)

- Candidate projects his own qualities on hero of the story.
- Limited time and writing space puts pressure on the test taker. Familiarity of the stimulus picture has no significant effect.
- As the test advances it induces sleep of conscious mind.
- The dispositions and conflicts that are inferred from candidates are not always reflected in overt behavior.
- Coaching based on ROTE Memory manipulates the natural behaviour of the candidates.

Conduct of TAT

- 12 pictures - (including one blank).
- Picture shown for 30 sec each.
- Candidate has to write his response/story in 4 min on a half-page of A4 sheet.
- No break given in between.
- Briefing given well before test and no

Nature of Slides

- Intentional ambiguity
- Pure black and white
- Switch over of emotions
- Assembled to suit the age
- Concrete v/s Abstract input

Types of TAT slides

- Neutral
- Emotional
- Social Relationship
- Accident/Fear Induced
- Stress Induced
- Dynamic Situations

Qualities Revealed based on type of Stimulus Picture

Neutral Slide

- True aspirations and level of the candidate is reflected.
- Basic thinking pattern is revealed.
- Imagination ability – Factor I.
- Bringing fear or any type of –ve trait, shows low SC & Courage

Accident/ Fear Induced

- Giving up tendencies
- Determination
- Courage
- Self confidence
- Tendency of imaginal fear
- Level of initiative

Emotional Slides

- Fluctuating mentality.
- Extreme/ Depressive tendencies.
- Liveliness.
- Mental stamina.
- Suicidal tendencies.
- Character Weaknesses.

Social Relationship

- Gender bias
- Social adaptability - Factor II
- Gang mentality
- Sense of Responsibility
- Ability to Influence the Group
- Perception of social group

Stress Induced

- Anxieties
- Fear of unknown
- Self confidence
- Threat perception
- Avoiding reality
- Inhibitions

Dynamic Situations

- Initiative
- Stamina
- Courage
- Motivational level
- Fantasy
- Spirit of achieving
- Desire to grow & develop

Logical Approach for TAT Response

$$\text{Behavior} = f(\text{Personality} \times \text{Environment})$$

Personality is the sum total of behaviors, attitudes, beliefs and values that are characteristic of an individual.

SAMPLE STORIES: **ACCEPTABLE & UNACCEPTABLE**

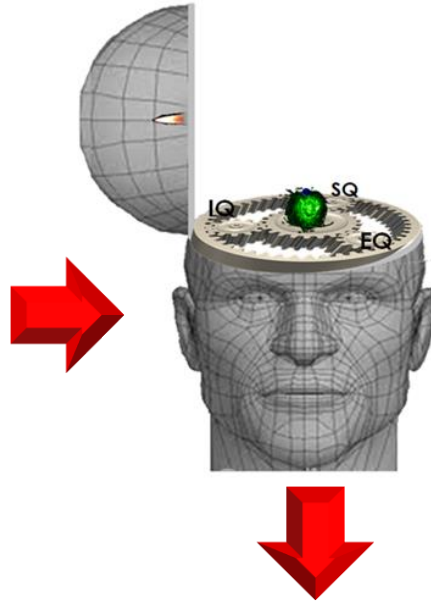

To the above picture, I'll give you a couple of unacceptable responses along with its detailed explanation and also one extremely good sample response by an ex-AFOSOP candidate, who was AIR-1 in 10+2 (TES) Entry and in NDA he was AIR-3.

[**CLICK HERE**](#)

**To know how to
analyze this picture**

SAMPLE UNACCEPTABLE STORY-1

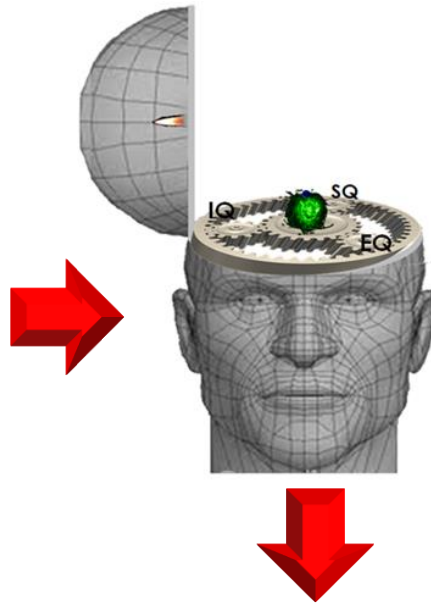

Raghu was a forest officer, poaching problems and cutting down of trees was increasing day by day. Raghu held a meeting with his team members and made a plan of making electrified fences to prevent the poachers from getting in and a strong and un-electrified fence inside to prevent the animals coming in contact with electrified fence, he also decided to talk with the villagers to start planting trees rather cutting them. He put down his plans in front of his seniors which was praised and accepted, Raghu visited the forest and decided where to make the fence and respectively it was made. Raghu with his team nearby villages and talked with them and gradually poaching problem was solved. And Raghu then worked for looking after the health of the animals in the forest.

FOR EXPLANATION

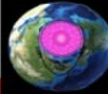

SAMPLE ACCEPTABLE STORY

Ram & Laxman were two forest guards on routine rounds in the jungle. While they were crossing the river on their elephant they heard a rifle shot. They immediately turned towards the gun shot sound direction. Ram called up the control station & informed them of the gun-shot. They heard a jeep buzzing off with a few persons in it. Ram, again on radio, alerted the control station, other guards & the gates. They lost sight of the jeep; however the jeep was intercepted near the eastern gate, by other jeep mounted patrol. Four persons along with a dead Black Buck was recovered from the jeep. They were handed over to the superiors for their further action.

Please mail your comments at afosop@gmail.com explaining what makes this response highly acceptable. Once I get sufficient comments I'll post my comments on this response.

TAT (Women)

Word Association Test (WAT)

60 x Words

Response

Association of idea is a well-known principle in which one idea, object or experience reminds some other idea, object or experience events.

Administration of WAT Test

- WAT is a test of your imagination.
- 60 words are presented one after the other.
- Each word is shown for 15 seconds.
- Express first thought or idea that comes to your mind.
- Arranged as per the four Leadership Factors.
- Have potential to evoke your imagination.
- Strict time limit help explore the contents of the subconscious mind.

Evaluation & Interpretation of WAT Responses

Each response is scrutinized in terms of the following:

- (a) What is the candidate trying to say?
- (b) Is it a "in structure" or a "out of structure" response.
- (c) Is there any appropriateness or logical connection with the stimulus word.
- (d) Is there any action or movement involved.
- (e) Is it a personal or impersonal response.

Types of WAT Responses

1. Personal Response
2. Injunctive response
3. Factual Response
4. Cliches
5. Incomplete Response
6. Blank response
7. Observational Response

Personal Responses

Talking about oneself. Such responses require no intellectual application.
e.g. I love playing cricket. I'm brave.

Injunctive Responses

Responses which are primarily giving advice to others/self or preaching are called Injunctive Responses.
Lacks any action or dynamism in it.
e.g. We must respect elders. You must work hard. We should be honest.

Factual Responses

These responses indicate simple & ready-made facts/information/ material available to the candidate and he himself does not utilize his intelligence. These responses indicate lack of imagination and thereby low factor 1 specially intelligence.

E.g. Sunrises in the east. Blood is red. Fish live in water. Mother gives birth to the child.

Cliches

Cliches are less intellectual, stereotype and borrowed responses. These are ready made quotes/statements to the candidate and he need not utilize his intelligence.

E.g. Honesty is the best policy. Prevention is better than cure.

Incomplete Responses

Incomplete responses shows low imagination and blocked or restricted thoughts.

E.g. Murder is Rape is

Blank Responses

For the blank or left response, the psychologist have to see the particular number and which word the candidate has left, to see whether it is emotionally charged.

Observational Responses

Observational responses are considered as good or deep positive responses and it shows analytical ability and problem solving behavior of the candidate. These reflect high factor 1 in the candidates, since these responses show the candidate's depth of observation and judgement.

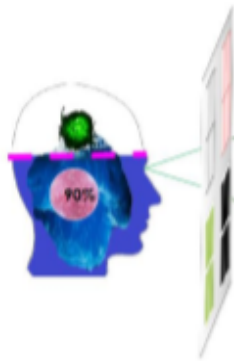

E.g. Regular sharpening maintains efficiency of the knife. Ego damages relationship.

Situation Reaction Test

40 x Situations of day-to-day nature presented (Booklet)

Response
(Think, feel and act in these situations)

- Based on Principle of Association" & Murray's "Need-Press Theory".
- Situation are ambiguous in nature.
- Cover all the factors - I to IV.
- No right or wrong responses.
- No watch - Half Time, Last 5 min & last min are indicated.

Characteristics of SRT Responses

Mostly conscious level responses | Socially desirable responses | Unconscious responses under time pressure.

Aim of SRT

- Helps identify immediate problem solving behaviour.
- Helps observe candidates action & movement.
- Practical ability to solve situations rationally.
- Conflict resolution strategy under stressful situations. (Avoids, comforts, withdraws, or faces courageously).
- Candidate's ability to organize responses under pressure.

Interpretation of SRT Responses

- Due weightage to natural responses.
- Intensity of self involvement observed.
- Blank indicates avoidance/ escape behavior.
- His/her personality reflects his Frame of Reference.
- Threat/stress perception – low/high/realistic.
- Withdrawal indicates avoidance behaviour.
- Realistic, appropriate & detailed responses.
- Pre-motor & sketchy responses reflects –ve trends.
- Testify the findings of the TAT & WAT.
- -ve findings given more emphasis.

Types of Action on Situation

- Attacks
- Struggles
- Compromise
- Withdraws
- Avoids

Classification of SRT Responses

- Blank Responses
- Incomplete/ Inhibited
- Fantasy Response
- Pre-Motor Responses
- Motor Responses

(Past History covered in parts)

CIQ on Early Home Background

Now please tell me something about your family. Suppose you tell me about your parents, their occupation, how do you spend time together, about other members of your family like brothers, sisters, uncles, grandparents etc. Whom do you approach for help when you have a problem, in whom do you confide? What are the activities in which you get personally involved with your family? How much pocket money do you get and how do you spend it? What are the activities in which you participate in your neighborhood? What is the most thrilling and exciting experience you have had in the company of your family members/friends? You may start with your parents.

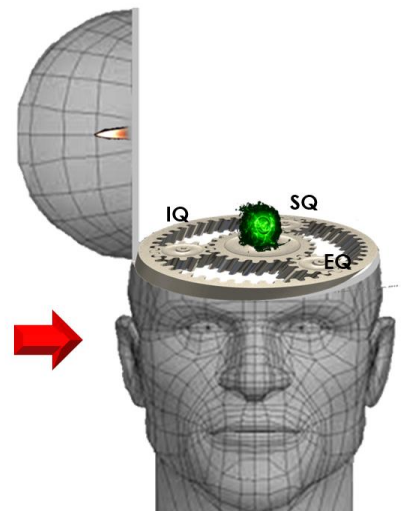

COMPREHENSIVE INFORMATION QUESTIONNAIRE (CIQ)

(Past History covered in parts)

Sample CIQ on Education

Suppose you tell me about your education; in this I would be interested in the subjects you liked the most, those you did not care so much about, grades achieved in exams, efforts put in, extra-curricular/co-curricular including adventure activities and NCC training available in school/college, the events in which you took part in and special achievements, about your closest friends and why you consider them so. The people you avoid and why. Teachers you liked the most, those who did not impress you much and why? Have you received any scholarship? What have you been doing since you passed out of school? You may start from class 10.

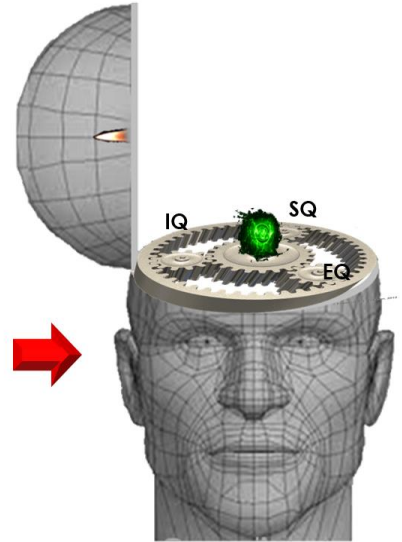

COMPREHENSIVE INFORMATION QUESTIONNAIRE (CIQ)

(Past History covered in parts)

CIQ on Spare Time Interests, Hobbies & Games

That gives me a good idea about your education, family and related matters. Now, please tell me how you spend your spare time. What are your hobbies, when and how did you choose these? How do you compare your level now in respect to your hobby, since the time you started? What are the games/sports in which you have participated in school/college, with family members and with neighborhood friends, your daily routine both on a working day and a holiday and about your reading/writing habits and TV watching habits etc.

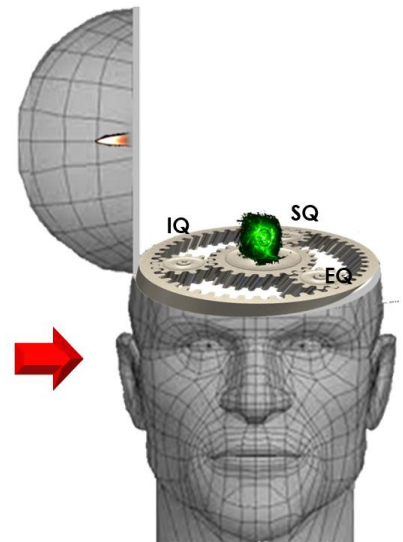

COMPREHENSIVE INFORMATION QUESTIONNAIRE (CIQ)

(Past History covered in parts)

CIQ on Work History (for civ wkg candidates)

Suppose you begin by telling me about your previous jobs. I would be interested to learn what duties did you perform, what were your likes/dislikes about these jobs? What were your working conditions and earnings? How much satisfied did you feel and what have been your achievements? What about the people you worked with, whom do you remember and why?
